

Actions are needed!

“Sponge theory”

Ready to fight climate change!

Chiara Intemite, Josué Dauvier and Mario Rodrigo
CLIMAST 2021

But first....

We should get more involved with our local governments, because they are the ones who take the day-to-day decisions that affect us more directly.

ACT ON VARIOUS INSTITUTIONAL LEVELS:

LOCAL (Mayor)

NATIONAL (President)

GLOBAL (all Presidents)

HOW?

For example in Europe there is: “Covenant of Mayors”

Single citizen or organisations can promote
this covenant to its Mayor

THEN

Mayor writes the plan for reduction of CO2 Emissions (led illumination, expand green spaces, use clear materials for making squares)

Mayor can promote in the schools environmental education projects

Youth are the future
